The Story

Once upon a time in faraway Ancient Greece lived a man. No – a Lion Man – a near Demi-God who went by the name... of Jason.

Jason, the man with the one sandal, blessed by The Gods, returned to claim his rightful place upon the throne of Thessaly. Denied his kingdom by the mad King Pelias, he and his mighty crew will sail the seven seas in search of the Golden Fleece aboard the legendary vessel – The Argo.

In this, the first chapter of our quest, Jason and his crew set sail for the fabled Isle of Lemnos, in search of news of the Golden Fleece. It is said that the island is a land of only women. I’m sure that had nothing to do with this being the crew’s first port of call...

The Game

Jason The Greek: The Ladies of Lemnos is the first chapter of a series of point-and-click adventures created by DreamFever Ltd – an Indie games studio based in Surrey, UK. It is based on the mythical adventures of Jason and The Argonauts in their quest to find the Golden Fleece.

You play as Jason – the handsome, seductive and quick-witted captain of The Argo – starting stranded alone on a beach in Gods know where after being knocked off of the ship by a sudden tidal wave, its up to you to guide him off of the island and back to his ship and crew so that he can continue his quest!

Chapter 1 of the series is entitled The Ladies of Lemnos, which is true to the original legend in that The Argonauts first stopped on the Island looking for any clue as to the whereabouts of the fleece.

The fact that the island was populated only by women, well... can you imagine Kirk on an island of women...?

The game is planned for PC, Mac, iPad and Table Android, with the first release of the game scheduled for summer 2014.

Jason The Greek: The Ladies of Lemnos is an new take on the old-school point and click adventure games inspired by titles like Monkey Island, Sam and Max Hit the Road, Discworld and the awesome Hector Badge of Carnage series.

It’s a 2d extravaganza with you taking charge as Jason The Greek in a world of Myths, Legends, Demi-Gods and puns galore.

- Explore a unique take on the classic Greek Myth in its own cartoon style!
- Interact with characters, objects, items and crabs!
- Solve mysteries and uncover a dark secret (oooo)!
- Romance a princess!
- Escape from a princesses bedroom before she wakes up.
- And basically steal any item that isn’t nailed to the floor...

Inspired by my love of Greek legends and an almost greater love of sci-fi spoofery its Jason and The Argonauts meets Captain Kirk and crew. It’s hard to believe I’m married, I know.

Right now I’ve got the demo completed (available from my home page) to a level I’m pretty happy with but its taken a loooong while in lunch times and late nights. From here I’m onto the main event of new locations, characters and items as well as the full story.
